EDUCATION

Universidad de la Costa CUC – *Colombia, Barranquilla*

System Engineering – 2025

Relevant Coursework: Algorithms & data structure, SQL / NoSQL databases, Web programming, Software Architecture, Networks and security, Cloud computing

WORK EXPERIENCE

Archanix Solutions – *Colombia*

03/2023 - 04/2024

Web Developer – Web Applications

- Delivered scalable and maintainable web applications as measured by project completion timelines by building and maintaining applications with React, Next.js, and TypeScript.
- Ensured seamless API integration as measured by faster data retrieval and fewer errors by collaborating closely with backend developers.
- Improved application state management and maintainability as measured by code efficiency and bug reduction by implementing Zustand and Redux.
- Accomplished a significant reduction in load times as measured by performance benchmarks by conducting performance optimization.

SKILLS & CERTIFICATIONS

Languages: Spanish (Native), English (Fluent)

Skills: HTML, CSS, JavaScript (ES6+), Typescript, Python, Java, React, Next, Node, RESTful APIs, GraphQL, Redux, Zustand, React Query, Tailwind, Drizzle, Prisma, React Native with Expo, Jest, MySQL, PostgreSQL, SQLite, Mongo DB, Adobe Creative Suite, Figma, Microsoft Excel, Power BI, Performance Optimization, Agile Methodologies, Git, UI/UX design, Vite.

Certifications: The Complete React Developer Course, The Ultimate MySQL Bootcamp, Node.js – The Complete Guide (MVC, Rest APIs, GraphQL), GIT+Github: A Version Control System from Zero, 100 Days of Code: The Complete Python Pro Bootcamp.
